

# Are they really trying to CHIP US?!? What's in the vaccine

**Oh Tio Rigo, there are no chips in the vaccine. Stop spreading false information on social media!**

**If our community doesn't take the vaccine, then the virus will bounce from body to body creating new mutations which may become resistant to the vaccines.**

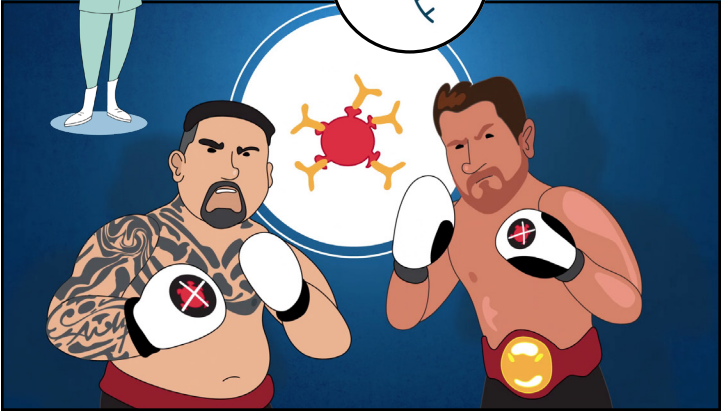

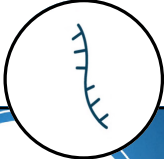

That's why everybody needs to take the vaccine, it trains your own immune system to fight the virus.

The vaccine contains something that looks like part of the virus, but is not the virus itself.

**Our bodies learn to recognise it and learn how to fight it.**

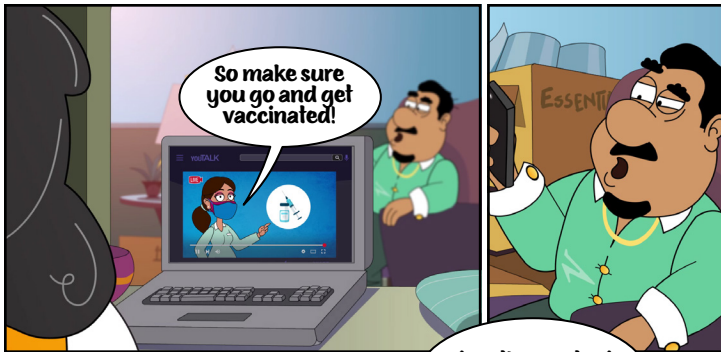

**This help our body make something called antibodies that can attack and kill the real virus before it starts to spread.**

**POW!!**

Somos miembros de la comunidad Hispana/Latinx en Carolina del Norte, trabajando juntos para promover la importancia de la prevención y vacunas contra el COVID-19.
